

2023 High Efficiency Gas Commercial Kitchen Equipment Incentives

New York City and Long Island

Save energy and money with energy efficient commercial kitchen equipment.

The food industry is one of the fastest growing competitive markets. Every year, hundreds of new restaurants or commercial kitchens open with the expectations of success. Being on the cutting edge and having ENERGY STAR® or high efficiency rated kitchen equipment can make the difference between success and failure in the commercial food industry.

Business professionals understand the importance of reducing energy costs in the food industry. National Grid has helped thousands of commercial kitchen customers establish significant long-term energy savings in the New York City and Long Island service areas. Our programs are designed for customers with commercial kitchens or restaurants. We offer energy efficiency programs and provide financial incentives for gas heating customers in these regions.

PRESCRIPTIVE INCENTIVE MEASURES

- ENERGY STAR® Commercial Fryer
- ENERGY STAR® Commercial Convection Oven
- ENERGY STAR® Commercial Steamer
- Commercial Rack Oven
- Commercial Conveyor Oven
- Commercial Combination Oven
- Commercial Griddle
- High-Efficiency Pre-Rinse Spray Valve

See reverse for incentive amounts on the above measures. In order to take advantage of our prescriptive incentive measures, visit www.amplifyincentives.com/NationalGridNYGas to view available incentives and to complete and submit your online application. Customers who do not have online access can call **1-855-926-7543** to receive a rebate application.

To find a list of qualified, eligible high efficiency commercial gas kitchen equipment, visit energystar.gov/productfinder/ or <https://caenergywise.com/rebates/>.

Please call **1-855-926-7543** or visit ngrid.com/business to learn about our commercial programs.

1GPM = Gallons per minute

To find a list of qualified, eligible high efficiency commercial gas kitchen equipment, visit <http://www.energystar.gov/productfinder> or <https://caenergywise.com/rebates/>.

All applications must meet the program guidelines that are defined in the Terms & Conditions found on www.amplifyincentives.com/NationalGridNYGas. Visit www.amplifyincentives.com/NationalGridNYGas to view remaining funds and to complete and submit your online rebate application.

Qualified equipment must be connected to a National Grid meter and be on firm commercial rate paying the System Benefits Charge (SBC). Customer cannot receive an incentive from National Grid and an incentive from NYSEDA for the same equipment. Multifamily buildings (5 units or greater) in New York City and Long Island service territories are not eligible to receive incentives through this program. Please refer to National Grid's Energy Efficiency Natural Gas Solutions for Multifamily Buildings program for New York City.

This program is available for installations completed between 1/1/2023 and 12/31/23. Rebate form and required documentation must be postmarked within 60 days of equipment installation date, but no later than 12/31/23.

Issuance of incentives for completed applications is contingent upon program availability. Check ngrid.com/business frequently for program updates and installation extensions. Due to limited funding, the program may be terminated at any time.
